

More Than Cleaning: Professional Sanitization

When we talk about **high-standard residential cleaning**, it's not enough to just "wipe" or "dust." Our mission is to take care of your family's health and well-being, avoiding any risk of cross-contamination between houses.

Professional Protocols

We follow sanitization systems with exclusive materials for each environment

Family Health

We guarantee 100% safety and quality to protect those you love

International Standard

We use globally recognized methods for maximum efficiency

Color Code System – Each Color, A Specific Function

To prevent cloths used in the bathroom from being reused in the kitchen, we adopt the international Color Code method, which guarantees maximum safety and organization:

- **Pink** → Bathroom areas (general cleaning)
- **White** → Bathroom (delicate details)
- **Green** → Surfaces and general dust
- **Yellow** → Kitchen (sink, counters, cabinets)
- **Blue** → Glass and mirrors
- **Orange** → Stainless steel and aluminum

- ✔ Thus, each environment is treated with exclusive materials, without the risk of transporting dirt or bacteria from one space to another.

Technology and Care in Every Detail

Smart Mop

System with separate clean and dirty water tanks – we never spread dirt across environments.

Exclusive Materials

Each client receives clean and sanitized equipment.

Certified Sanitization

Certified products to kill germs, bacteria, and completely eliminate odors.

Total Organization

Our care goes beyond visible cleanliness:

Bags Separated by Area

One for the kitchen (blue) and one for the bathroom (red), maintaining total organization.

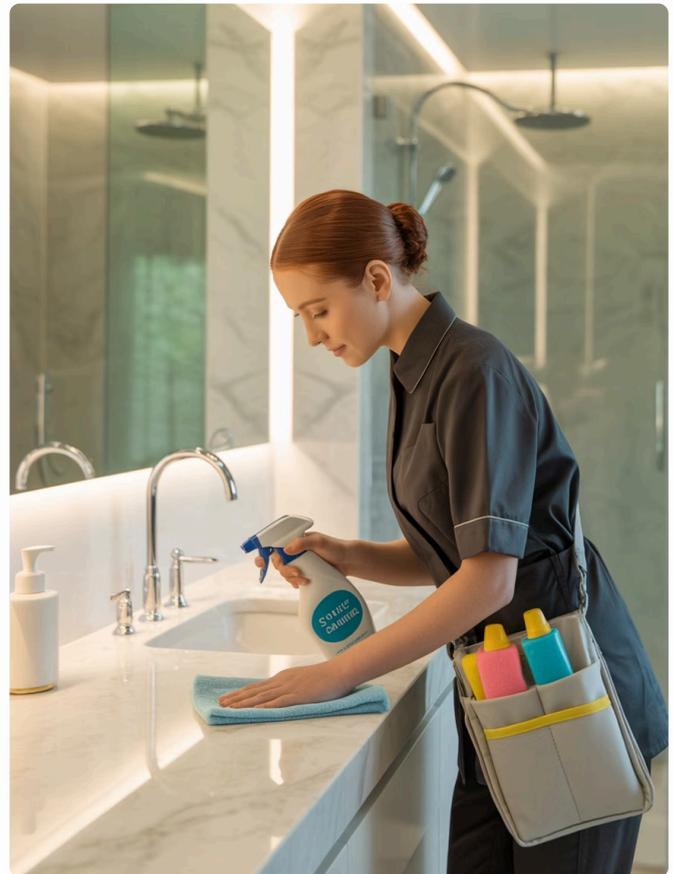

Hygienic Transportation

Products always organized and transported following standardized protocols.

Personalized Training

Teams personally trained by me, with constant periodic supervision.

Our supervisor has been in the sector with me for over 3 years, ensuring that the quality standard is always maintained.

Confidence and Expertise: Who Cares for Your Home

The excellence of our sanitization starts with our people. Our team is selected, trained, and supervised to deliver care and attention to the highest standard. More than just techniques, it's dedication to protecting your home and your family's health.

Continuous Training

Our team undergoes regular training to master the most advanced techniques and the correct use of all products and equipment, ensuring no damage to your belongings.

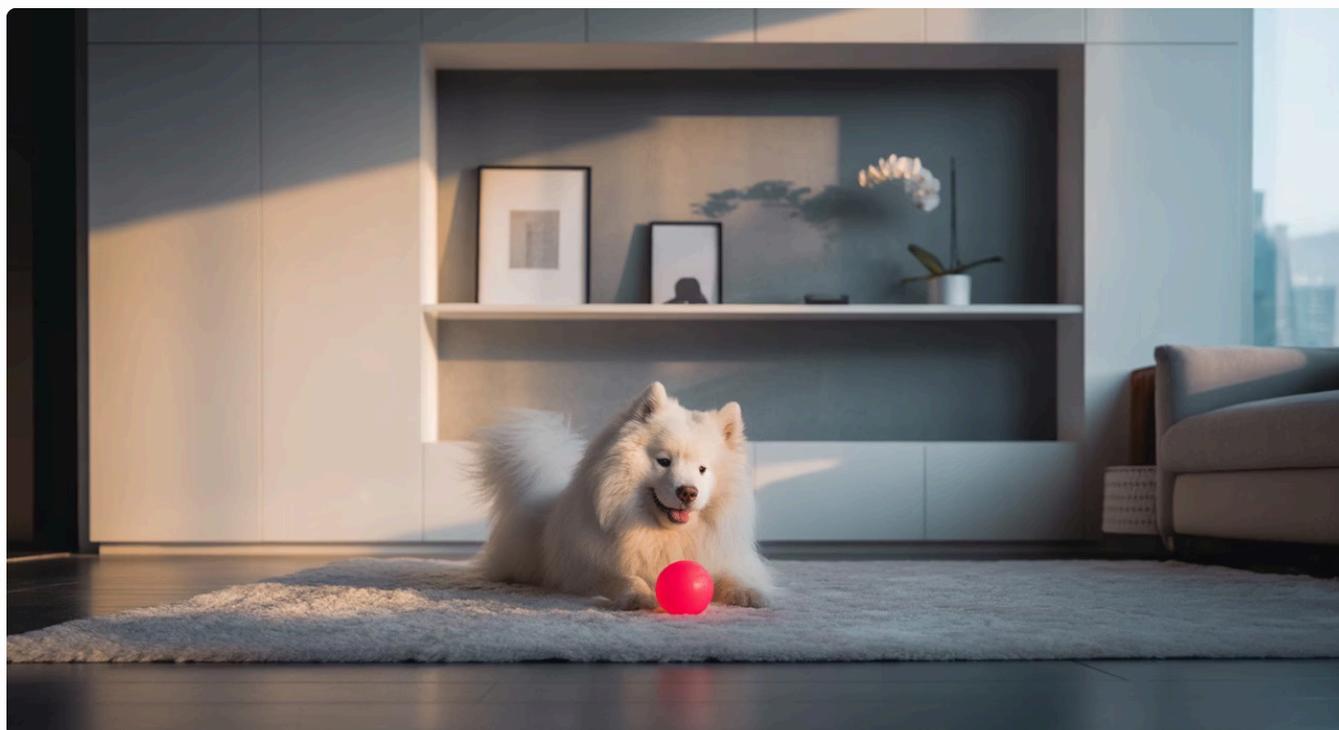

Qualified Professionals

All our employees are rigorously selected and have proven experience, guaranteeing a trustworthy and high-quality service.

Personalized Care

We understand that every home is unique. Therefore, we adapt our methods and attention to your specific needs, with utmost discretion and respect.

Our commitment is to your peace of mind. Every service is performed with dedication so that you have not just a clean house, but a truly sanitized environment, cared for with affection and responsibility. We treat every home as if it were our own, because we understand the importance of trust and care in every detail.

"Our philosophy is simple: to treat every home as if it were our own, with the same level of care, dedication, and attention to detail."
